DESCRIPTION:

In one of the most peaceful and private areas of Desenzano del Garda, "Residenze Ville del Garda" is taking shape—an exclusive real estate development composed of three detached villas with a contemporary style, nestled in greenery and perfectly integrated into the surrounding environment. This project is designed to offer privacy, high living quality, and maximum energy efficiency, in a strategic location—away from the noise, yet close to all major services and transport links. Each villa is a perfect blend of modern architecture, comfort, and sustainability, created for those who seek a home with a distinctive character, surrounded by nature and equipped with top-tier technological solutions. Villa Turbiana is one of the villas in the complex and is developed entirely on a single floor—an ideal solution for those looking for convenience without compromising on aesthetics. The spaces are spacious, well-organized, and flooded with natural light thanks to the large windows overlooking the private garden, creating a continuous dialogue between indoor and outdoor living. The open-plan living area is the vibrant heart of the home: airy, modern, and welcoming—perfect for sharing relaxing moments or entertaining, always with a view of the surrounding greenery. The sleeping area includes a comfortable master suite and two versatile single bedrooms—ideal for children, guests, or to be used as a home office or hobby room. The two windowed bathrooms, finished with high-quality materials and a clean, contemporary design, complete an interior layout that is both functional and enjoyable. Outside, the villa is embraced by a carefully landscaped private garden, ensuring total privacy and tranquility. The covered porch, overlooking the swimming pool, is a space designed to be enjoyed in every season—from outdoor dinners on summer evenings to moments of relaxation in the sunbathing area.
